

- Are you HIV-positive and looking for services?
- Are you concerned about your risk of HIV?
- Are you a service provider looking for referrals?

ASO411 is designed to help you find what you need.

Access to information about HIV-related services in Canada

ASO411 is an online mapping tool that provides access to up-to-date information about HIV-related services in Canada for people who need services and for service providers.

You can search for services by your address, community group or specific need.

www.aso411.ca

A project of the Toronto HIV/AIDS Network's Information and Access Working Group (AIDS Committee of Toronto, Casey House, Hemophilia Ontario, LOFT Community Services, Toronto Central Community Care Access Centre and the Toronto People With AIDS Foundation, in partnership with the Ontario HIV Treatment Network and the Canadian AIDS Treatment Information Exchange).
