Surveys, Studies and Focus Group

- **Committee for Accessible AIDS Treatment, Alliance for South Asian AIDS Prevention, and Asian Community AIDS Services (CAAT-ASSAP-ACAS)** collaboration for International Student HIV (ISHIV) study is seeking volunteers for a study on what challenges may be encountered by HIV+ international students when accessing treatment and health services. **Eligibility criteria:** 16+ years or older; HIV+ person who holds (or has held) a student visa to Canada in the last 5 years; and who is able to communicate and provide consent in English. **Compensation:** \$50.00, plus TTC tokens. [*Please see the attached poster for more information.*]
- **HIV Stigma Index** is seeking participants to collect information about their experiences living with HIV related to stigma, discrimination, and human rights. **Eligibility criteria:** living with HIV. **Compensation:** \$50.00. Interview will last between 1 to 2 hours. [*Please see the attached poster for more information.*]
- **HIV Prevention Lab** is seeking individuals for **Project THRIVE+**. It is a 10 session individual cognitive behavioural therapy treatment to reduce trauma-related distress and increase antiretroviral treatment adherence and engagement in HIV care in gay, bisexual, and other men who have sex with men living with HIV. In this study, participants will be randomly assigned to receive 10 individual counselling sessions or 2 individual counselling sessions. Randomization will be stratified by the presence or absence of current post-traumatic stress disorder diagnosis. Participants will complete baseline assessments involving self-report questionnaires and clinician-administered interviews, as well as assessments 3, 6, and 9 months later. Medication adherence will be tracked through the use of Wisepill dispensers. Treatment adherence will also be assessed through self-report measures and by obtaining viral load and CD4 cell counts from participants' healthcare providers. **Compensation:** Individuals who get randomized to the Treatment group will get paid up to **\$375** and individuals randomized to the control group will get paid up to **\$230**. There is no waitlist. This study is led by Dr. Conall O'Cleirigh (the Fenway Institute, Massachusetts General Hospital, and Harvard Medical School) and Dr. Trevor Hart (HIV Prevention Lab Director, Ryerson University and the University of Toronto). [*Please see the attached poster for more information.*]
