

Casey House HIV & Mental Health Series

in collaboration with the St Michael's Hospital (Unity Health Toronto)

REGISTRATION AT registration@caseyhouse.ca

Zoom link to follow.

This education series is intended for health care and support service providers caring for people living with, at risk for and affected by HIV.

**WEBINAR – Tuesday September 29th, 2020 at 10:30 a.m.
with Dr. Malika Sharma**

Making HIV Care trauma-informed: universalizing the particular

Would you like to continue the exploration of trauma?

Learn more about trauma informed care for people living with HIV?

Dr. Malika Sharma is a physician and Education Lead in the Division of Infectious Diseases at St. Michael's Hospital and is an Assistant Professor in the Department of Medicine at the University of Toronto. She has been involved in the care of some of Toronto's most marginalized communities.

The intention of this presentation is to provide greater understanding of trauma informed care for people living with HIV.

Overview

- To understand the principles of trauma-informed care
- To explore trauma-informed care for people living with HIV
- To share clinical experiences and evidence-based recommendations
